

- The so called Covid-19 “vaccines” are not vaccines but experimental gene therapy
- The vaccines have NOT been approved by FDA
- They have NOT been tested long-term and nobody knows the consequences
- People with history of allergic reactions & pregnant women were excluded from trials and there is no data how vaccine will affect fertility
- Phase 3 / human experiments are still ongoing until 2022 Moderna / 2023 Pfizer
- Efficacy is not clear & is unknown beyond two months
- Neither Moderna nor Pfizer claim that you develop immunity against COVID-19 after taking the vaccine, nor that you can't spread COVID-19
- Many leading scientists warn that there might be potential mid-long term side effects and an explosion of auto-immune diseases and hyper-inflammatory responses in coming years
- Many specialists already filed applications to immediately halt the vaccinations, sued the FDA in federal courts and filed complaints to the International Criminal Court in The Hague
- There are already hundreds of thousands of adverse events and thousands of deaths listed in the official VAERS reporting system in the USA & in the official EU reporting system
- The companies selling and those involved in virtually any other activity related to any COVID-19 vaccine have been granted immunity from liability for any injuries caused by these products
- EU health insurance companies already stated that they will not cover any treatment of adverse effects due to the vaccinations
- The vaccinations need the informed consent and the ability to exercise free power of choice by the recipient otherwise they are in direct violation of The Nuremberg Code, in violation of article 6 of the UNESCO 2005 Universal Declaration On Bioethics And Human Rights and the Helsinki Declaration. All these medical ethics and standards were adopted worldwide and are part of our laws. They are currently being violated by these experimental treatments and any immunity passports will be in stark violation to them, too.
- These medical standards, ethics and laws have been written after the Third Reich for a reason and everybody should remember why!
