

## COVID\_19 Vaccines Adverse Events

• **The USA offers the VAERS/ Vaccine Adverse Event Reporting System**, a well established PASSIVE reporting system for adverse events of vaccinations. It is not very well known, only few doctors know about its existence and it is not used often. A research paper concluded that only ca. 1% of all cases are reported in the VAERS system.

CDC and providers of COVID-19 vaccinations suggest to use the V-Safe App for feedback and reporting of COVID-19 vaccines adverse events. So it is highly questionable how many side effects actually are being listed in the VAERS. <https://wonder.cdc.gov/vaers.html>

- Numbers in the VAERS reporting system as of July 9, 2021  
**10,991 Deaths**  
**463,456 Adverse Events** in the United States since December 2021

• **In Europe the EudraVigilance Reporting System** is collecting the data of Vaccine Adverse Events. Its also not very well known and might only collect ca. 3% - 5% of all adverse event cases.

Like in the USA the vaccine providers and authorities suggest to use the V-Safe / SafeVac App for feedback and reporting of COVID-19 vaccines adverse events. So it is highly questionable how many side effects actually are being listed in the EudraVigilance Reporting System. <https://covid-crime.org/eu-adverseeffects/>

- Numbers in the EurdaVigilance Reporting System as of July 10, 2021  
**18,928 Deaths**  
**2,014,624 Adverse Events** in Europe since December 27, 2021

December 27, 2020 – July 10, 2021						
	Covid-19 Vaccines Adverse Events in Europe					
	Moderna	Pfizer	AstraZeneca	Janssen		All
Fatal	5,109	8,939	4,200	680		18,928
Not Recovered/ Not Resolved	54,151	155,043	236,883	18,421		464,498
Recovered/Resolved	75,686	301,629	387,372	19,212		783,899
Recovered/Resolved with Sequelae	737	7,376	13,257	79		21,449
